👤 PROFILE

Passionate and innovative Game Developer and Level Designer with a strong desire to make a mark in the gaming industry. Seeking an internship opportunity to apply my creativity and technical expertise in a professional setting.

I am proficient in game design, 3D modeling, and coding, bringing a unique blend of artistic vision and technical acumen to create captivating game experiences. Adaptable, detail-oriented, and dedicated to honing my craft, I am eager to contribute to a dynamic game development team

🎓 INTERSHIPS

August 2022 –
September 2022

Developer at E-Surveys

I developed an optimized web application that allows users to securely store and manage their data in the maritime domain using Angular, Ionic, and NodeJS.

July 2023 – September 2023

Developer at ContyFind

I redeveloped a web application for streamlined management of maritime data using Angular, Ionic, and NodeJS. This enhancement optimizes user experience, ensuring a seamless and secure platform for simplified storage and management of sensitive data.

🎓 EDUCATION
